

**Material Safety Data Sheet. (MSDS)**

Eptech Corporation

Trade name: Polytron MTC

Reviewed on March 30, 2019

Page : 1/4

**1 Identification of substance****Product details**

Trade name: Polytron MTC (Metal Treatment Concentrate)

Application of the substance: Complementary Oil Additive package

**Manufacturer / Supplier:**

Eptech Corporation, USA

**Emergency information:**

Fax: 001-949-646-2246

e-mail: ep\_tech@msn.com

**2 Composition / Data on components****Chemical characterization****Description:** Oily fluid mixture of petroleum-based chemicals mixed with oxidation inhibitor and detergent chemicals.**Dangerous components:**

CAS-No.	Designation	%	Index R-phrases
9003-29-6 EINECS: 500-004-7		<3%	
8042-47-5 EINECS: 232-455-8		30-60%	
61788-90-7 EINECS: 263-016-9		25-45%	
Oxidation Inhibitor & Detergent		<3%	

### **3 Hazards identification**

**Hazard designation:** Xi Irritant

**Information pertaining to particular dangers for man and environment:**

R22 Harmful if swallowed  
R36 Irritating to eyes  
R38 Irritating to skin

Trade name: **Polytron MTC**

Printing date 22.10.2011 / Reviewed on 30.06.2011

**Classification system:**

The classification is in line with current EC lists.  
Refer to no. 11 and 12

### **4 First aid measures**

**After Inhalation:**

Remove exposed person to fresh air. If breathing is labored, administer oxygen and obtain immediate medical attention. If irritation persists, get medical attention.

**After skin contact:**

Wash immediately with soap and water. Remove soiled clothing. Get medical attention if irritation develops. Launder contaminated clothing.

**After eye contact:**

Rinse eyes for at least 15 minutes under running water with eyelids held open. Get medical attention if eye irritation develops or persists.

**After Ingestion:**

DO NOT INDUCE VOMITING. Rinse out mouth and then drink plenty of water. Seek immediate medical attention.

### **5 Fire fighting measures**

**Flash Point:** 153 °C

Slightly Combustible. May release flammable vapors when heated above flash point.

**Extinguishing Media:**

Carbon Dioxide, dry chemical, or foam. Avoid using water.

**Protective equipment:**

Refer to sections 8 and 16

**General Advice:**

Use water only for cooling container. Water may cause splattering or transport the flame.

### **6 Accidental release measures**

**Personnel-related safety precautions:**

Evacuate all non-essential personnel. Personal Protective Equipment must be worn, see PPE section 8 & 16.  
Remove sources of ignition.

**Measures for environmental protection:**

Prevent entry into sewers and waterways.

**Measures for cleaning/collecting:**

Contain release, pick up free liquid for recycling or disposal. Residual liquid can be absorbed with inert material.

**Additional information:**

No dangerous materials are released

### **7 Handling and storage**

**Handling:**

Avoid prolonged skin contact, breathing vapors, and contaminated clothing. Use with adequate ventilation. Wear recommended protective equipment. Practice good personal hygiene after handling. Empty containers retain material residue. Do not cut, weld, braze, solder or expose containers to other ignition sources.

**Storage:**

Store in closed containers of proper construction. Store away from ignition sources and in areas of good ventilation.

**8 Exposure controls and personal protection**

Components with critical values that require monitoring at the workplace:

CAS-No.	Designation of material	Value	Unit
8042-47-5		TLV (US) 5	mg/m <sup>3</sup>
EINECS: 232-455-8			

**Additional information:**

Use in areas of adequate ventilation. Use mechanical exhaust to control vapors or mists (if present).

**Personal protective equipment:****General protective and hygienic measures:**

The usual precautionary measures should be adhered to in handling the chemicals.

**Respiratory Protection:**

Use approved respirator with organic vapor/mist cartridge is recommended if exposure limit is exceeded. Self-contained breathing apparatus is recommended for confined space entry.

**Gloves:**

Nitrile or neoprene gloves are recommended.

**Penetration time of glove material:**

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

**Eye protection:**

Wear safety glasses, goggles or face shield when working above eye level if there is danger of splashing.

**Clothing:**

Long sleeve shirt and apron when potential for skin contact. Wear neoprene or nitrile rubber boots when necessary to avoid contaminating shoes.

**9 Physical and chemical properties:**

Form: Liquid

Colour: Yellowish clear

Smell: Odorless

**Specific Gravity:** 1.01

<b>pH-value (T=23 °C)</b>	Not determined
<b>Melting point ;</b>	Not determined
<b>Boiling point/ Boiling range:</b>	> 300 °C
<b>Flash point (open cup):</b>	> 153 °C (307 °F)
<b>Self-in flammability:</b>	Not determined
<b>Vapor density (T=20°C)</b>	Heavier than air
<b>Vapor pressure (T=20°C)</b>	1 mmHg
<b>Water solubility (T=20°C)</b>	Low
<b>Evaporation Point:</b>	Higher than ether

**10 Stability and reactivity****Stability:**

Material is normally stable at ambient temperature and pressure.

**Conditions to be avoided:**

Do not store with strong oxidizing agents. Keep away from heat, sparks, open flame, or all sources of ignition.

**Dangerous reactions:**

Will not occur.

**Dangerous products of decomposition:**

Carbon dioxide, carbon monoxide, hydrocarbons.

## **11 Toxicological information**

### **Primary irritant effect:**

#### **On the skin:**

Not expected to be a primary skin irritant. Prolonged or repetitive contact may cause irritation.

#### **On the eye:**

Not expected to cause eye irritation. Prolonged or repetitive contact may cause irritation.

### **Sensitization:**

No sensitizing effect known.

### **Oral Toxicity:**

Swallowing material may cause irritation of the gastrointestinal lining, nausea, vomiting, diarrhea.

### **Carcinogenicity:**

None.

## **12 Ecological information**

### **General notes:**

Due to very low solubility of this product in water it is impossible to assess the effect of this product on marine and plant life, although large spills in water or soil are expected to have adverse effects on marine and plant life.

## **13 Disposal considerations**

### **Recommendation:**

Recycle used oil. Do not contaminate used oil with solvents or other chemicals.

### **Unclean packaging:**

Disposal must be made according to official regulations.

## **14 Transport information**

The product is not classified as dangerous for transport by road, by sea or by air in accordance with appropriate regulations (RID/ADR, IMDG, IATA-DGR).

## **15 Regulatory information**

### **Designation according to EC-guidelines:**

This substance is not listed in the Annex I of Regulation (EC) No 689/2008.

### **EU REACH: Anex XVII**

Not applicable

### **Hazard-determining components for labeling:**

ELINCS: None

### **R-phrases:**

None

### **S-phrases:**

S 24 When handling, avoid contact with skin and eyes

S 25 In case of massive contact with eyes rinse immediately with plenty of water and seek medical advice.

S 37/39 When risk of splash, wear suitable gloves and wear safety glasses.

### **National regulations:**

None.
